

OPTION 1 DC-PLUG +-PAIR MC4 FOR FRONIUS SYMO 10.0 – 20.0 KW AND FRONIUS ECO

/ The MC4 cable option enables inverters to be cabled-up quickly and easily, which in turn allows a rapid PV system connection process. The option can be ordered on an individual basis per string (2 to 6 strings) and has been specially designed for use with Fronius Symo 10.0 – 20.0 kW and Fronius Eco inverters. The inverters are delivered with the installed MC4 cable option¹⁾.

TECHNICAL DATA

TECHNICAL DATA	OPTION 1 DC-PLUG +-PAIR MC4
Item number	4,251,021
Type	Multi-Contact MC4
Cable cross section	6 mm ²
Cable length	26 cm, of which 13 cm is outside the housing
Rated voltage	1000 V DC (IEC)

DISTRIBUTION OF STRINGS

NUMBER OF STRINGS	2	3	4	5	6
Input A	1	2	2	3	3
Input B	1	1	2	2	3

¹⁾ The option must be ordered at the same time as the inverter. A retrofit version is not available. Original Multi-Contact MC4 PV coupling plugs and sockets must also be used for connecting the PV generator.
